Summary

Front-End developer with 4+ years of experience building and maintaining high-quality, responsive web applications for different domains, such as e-commerce, education, and health care. Proven ability to deliver projects on time and within budget, both independently and collaboratively. Proficient in JavaScript, TypeScript, React Js, Next Js, Laravel, PHP. Hands-on experience with Agile development methodologies and a proven ability to translate complex business requirements into user-friendly digital interfaces. I have the motivation to learn new technologies and skills, and to self-develop as a Software Engineer. I always want to be part of a hardworking, creative, and understanding team that shares the same vision and goals.

Skills

React • Next.js • Laravel • PHP 8 • RESTful API • Bootstrap • HTML/CSS • JavaScript

Work Experience

Full Stack Web Developer

Dec 2019 – Dec 2023 • 4 yrs

A l i f B e e • Full-time

Istanbul, Turkey

Technologies: React • Next.js • JavaScript • TypeScript • Laravel 8

I worked with the team on many web applications and there were many challenges and the team had a very competitive spirit . One of the most important projects we lunched was a project to teach the Arabic language to non-native speakers which has shown great success around the world using different web technologies and platform such as React js, Next js, JavaScript, HTML, CSS, jQuery, Java, bootstrap and styled component.

- I have good knowledge to use Postman tools for testing APIs.
- Supporting the analysis of business requirements, design specifications, development, and technical & user documentation of development report with internal teams.
- Building many landing pages support SEO metrics.
- Building web applications to manage the content of the entire curriculums for more than one language and educational institution using Laravel framework which follows the Model-View-Controller (MVC).
