PROFILE

Detail-oriented Front-End Developer with 3+ years of experience in designing and maintaining high-performance, responsive web applications across diverse industries, including e-commerce and education. Proficient in JavaScript, TypeScript, React.js, Next.js, Laravel, and PHP, with a strong background in Agile methodologies. Adept at translating complex business requirements into intuitive and user-friendly digital experiences. I have a strong sense of quality, a hands-on approach, excellent communication skills, a collaborative spirit, and a high level of motivation.

SKILLS

JavaScript	<div><div></div></div>	TypeScript	<div><div></div></div>
React.js	<div><div></div></div>	Next.js	<div><div></div></div>
Laravel	<div><div></div></div>	PHP	<div><div></div></div>
Vue.js	<div><div></div></div>	HTML, CSS	<div><div></div></div>
Bootstrap	<div><div></div></div>	Git, Jira	<div><div></div></div>

PROFESSIONAL EXPERIENCE

Junior Full Stack Web Developer

Alemi (AlifBee)

12/2019 – 12/2023

Istanbul, Turkey

- Developed and maintained responsive, user-friendly web applications, enhancing online presence and user engagement.
- Collaborated with cross-functional teams to deliver high-quality web solutions and optimize performance.
- Optimized website performance and user experience by implementing best practices in front-end development, leading to a significant reduction in load times and improved accessibility.
- Played a key role in migrating legacy systems to modern technologies, ensuring smoother operations and better scalability.
- Contributed to the Agile development process, actively participating in sprints, code reviews, and collaborative problem-solving sessions.
- Kept up-to-date with the latest trends and advancements in web development, continuously applying new skills to improve project outcomes.
- professional experience in development and understanding of object-oriented programming concepts.
- One of the most important projects we launched was a project aimed at teaching the Arabic language to non-native speakers. This project has achieved great success worldwide by utilizing various web technologies and platforms such as React.js, Next.js, JavaScript, HTML, CSS, jQuery, Bootstrap, and Styled Components.

Web Developer

Freelance

2020 – 2022

Istanbul, Turkey

- Developed and launched multiple e-commerce web applications for various clients, tailored to meet specific business needs and market demands.
- Worked closely with clients to understand their requirements and deliver customized, scalable, and user-friendly solutions.
- Utilized a range of technologies including JavaScript, React.js, Next.js, HTML, CSS, and PHP to build responsive and high-performance web applications.

- Optimized websites for SEO and improved loading times, enhancing user experience and driving more traffic to client sites.

Intern Full Stack Software Engineer

Al Manara Soft

01/2018 – 04/2018

Damascus, Syria

- Focused on developing and enhancing features for the "Al-Manara" software, a program for accounting and warehouse management.
- Gained hands-on experience with C# and Angular through real-world application in developing and maintaining software modules.
- Collaborated with senior developers to understand best practices in software development, particularly in the context of enterprise resource planning (ERP) systems.
- Contributed to the optimization of existing code, improving the performance and reliability of the software.
- Assisted in troubleshooting and debugging issues within the "Al-Manara" software, ensuring smooth functionality for end-users.

EDUCATION

Bachelor degree in Information Technology Engineering

Damascus University

2011 – 2017

Damascus, Syria

PROJECTS

AlifBee Landing page and AlifBee Kids Landing Page

- Developed a landing page focused on creating an SEO-friendly platform using Next.js for server-side rendering and optimized performance. Employed Bootstrap 5 for a modern, responsive design, and utilized HTML and CSS for custom styling and layout.
- Implemented SEO best practices, including meta tags, structured data, and optimized page load times to improve search engine visibility and ranking.

AlifBee Web App

- Utilized React.js to build the user interface, providing a dynamic and responsive experience.
- Implemented Redux for state management, ensuring a predictable and efficient way to handle application state.
- Integrated RESTful APIs to enable seamless communication between the front-end and back-end, facilitating data retrieval and management.
- Used Bootstrap to design and develop a consistent, responsive layout.
- Applied Styled Components for modular and maintainable CSS-in-JS styling.

AlifBee LMS

Content Management and Curriculum Management System

- **Technologies Used:** PHP 8, Laravel, React, MySQL, MVC.
- **Description:** Developed a comprehensive system for managing application content and Arabic language curricula. Used PHP 8 and Laravel for the back-end development, leveraging Laravel's robust features for building secure and scalable applications. Integrated React for a dynamic and interactive user interface.
- **Database Management:** Utilized MySQL to handle data storage and retrieval efficiently.
- **MVC Architecture:** Employed the MVC (Model-View-Controller) design pattern to separate concerns and streamline the development process.

COURSES

Django Web Framework
